

Name:

SA305 – Linear Programming  
Asst. Prof. Nelson Uhan

Spring 2016

## Exam 1 – Second Chance

### What is this?

- This is another chance for you to improve and demonstrate your understanding of the course material.
- You can resubmit one problem of your choice from Exam 1.
- You must redo all parts of the problem you resubmit.
- No partial credit will be given for these resubmitted problems.
  - If you correctly answer all parts of your resubmitted problem, then half the points you missed on the problem will be added to your Exam 1 grade.
  - Otherwise, you will keep your original Exam 1 grade.

### Rules on collaboration and allowed materials

- **No collaboration allowed.** All work must be your own. You may not discuss this exam with other midshipmen.
- You may use your course materials (i.e., notes, homework solutions, quiz solutions, textbook).
- You may use your calculator.
- You may not use any other materials.

### Instructions

- This second chance is due at the beginning of class on Friday 26 February.
- This second chance is optional.
- Complete the problem you want to redo on a separate sheet of paper.
- Show all your work. Your answers should be legible and clearly labeled. It is your responsibility to make sure that I understand what you are doing.
- Sign the honor statement below in ink.
- Staple together and submit the following items in this order:
  1. This sheet
  2. Your original exam
  3. Your redone problem

### Honor statement

I pledge on my honor that I have not used any unauthorized materials, and that I have not given or received any unauthorized assistance during this exam.
